TO FIND LIGHT COST

COUNCIL AND COMMITTEE TO GET DEFINITE FIGURES

LIGHT CO., ASKS RAISE

A Fifteen Per Cent Increase Over Old Rate Was Demanded—Experts Will Make Report

Mayor W. O. Garrett and members of the city council are determined to lose no time in working out the plan approved at the mass meeting on Tuesday night of voting a tax levy in payment for city lights, covering a contract that is expected to be made with the light company covering a period of years.

The members of the council, together with the citizens committee, E. C. Curfman, Conrad Yehle and R. F. Hamblen, and Manager C. C. Hellmers of the light company, met informally at the council rooms last night to discuss the terms of the proposed contract fo rcity and white way lights. Manager Hellmers asked that the city grant an increase of fifteen per cent over the old price charged, the increase being necessary, it was explained, on account of the added cost of production, including the price of coal, labor, etc.

The council and committee, in an effort to arrive at a definite conclusion, and in order to satisfy themselves and the taxpayers of the approximate sum that should be paid have asked for figures from disinterested experts, and until these are had final action in making the contract will be held up.

Said Mayor Garrett this morning, in speaking of the matter: "We want to convince ourselves that the increase asked is justified, and if we find that it is we will make the contract. It is simply a matter of lights or no lights—a contract or no contract. The lights will remain on, awaiting a called meeting of the council to accept or reject the contract by the light company."

Mayor Garrett expects that the matter will be definitely settled within the next week or ten days.

REGISTER TODAY

MARYVILLE WILL ANSWER THE CALL WITH 1,000 MEN

500 ARE LISTED AT NOON

A Rush at All Precincts In Early Morning Hours Keeps Registrars Busy—Open Till Nine Tonight

Maryville is answering the call today of the United States government and men between the ages of eighteen and forty-five are signing the roll, pledging their services and their lives if necessary in helping to win the war.

General Crowder puts the salient facts before Americans now called upon in these words:

"Through this registration it is proposed to enroll the names of approximately 13 million men not subject heretofore to the draft.

"The obligation resting upon the individual this day is clear cut and not to be mistaken. The patriotism and the honor of our manhood furnish the main reliance of the nation at this hour. Patriots will not fail to respond. Slackers must respond. For those who would evade their obligation the law provide s punishment, swift and certain. A year's imprisonment faces the man who evades, and no man can buy his escape from this penalty through payment of a fine."

"This task completed, America will have taken a census of its available manpower. With this enrollment and the registrations of June 5, 1917; June 5, 1918, and August 24, 1918, we shall have placed in this reservoir the names of approximately 23,400,000 men. From those we select, choosin gfor the army those best suited physically and by circumstances for the field of battle, and classifying those remaining in accordance with the extent where their energies are needed for the support of the nation at home of the military establishment. It is true that we must proceed if we are most effectively to distribute the energies of our people for the supreme task of winning the war."

At the four registration precincts in the city at noon today with nearly five hundred registered at one o'clock it was indicated that the estimate of 1,200 registrants for Polk township would not reach that number. The early morning hours found many at the registration places waiting to be enrolled and until ten o'clock the registrars were kept busy. After that hour fewer appeared. Many are expected to register between six and nine o'clock this evening after they have finished work. So great was the rush this morning that many left to return later in the day.

TWO BIG HUN FORTS MENACED

Way Open For Americans to Strike at Metz and Strassburg—Terrific Barrage Fire Lasting Four Hours Before In-fantry Attack Was Begun

Paris, Sept. 12.—The long-heralded American offensive in France began today. It was started this morning on the western edge of Woevre Plain and was evidently intended to break the grip of the Germans on the Meuse river south of Verdun and open the way for attacks against the great German fortresses of Metz and Strassburg.

With the opening of the American drive the Allied offensive operations now extend over practically all of the western front from the North Sea to the Swiss frontier. For some time the Americans have been concentrating heavy forces on certain sectors of the American front and developments today indicated there are being massed on the Woevre Plain two dominating forces to stand out in the battle situation, first that the American offensive was launched on registration day in America, second that Secretary Baker has just reached the fighting front. Up to noon few details have been received although it was known the Americans were advancing and that they had wrested a big slice of ground from the Germans.

London, Sept. 12.—A great American offensive on the western front in France is under way. The drive was launched this morning at five o'clock on the Lorraine front. The assault centered on both sides of St. Mihiel on the Meuse river south of Verdun. A terrific barrage fire lasting four hours was put down before the infantry attacks began.

London, Sept. 12.—Continuing their drive eastward in an encircling movement about St. Quentin, the British have taken Vermand, Vendelles and Atilly (five miles west of St. Quentin) and have made progress into Holtenwood (four and a half miles west of St. Quentin), the war office announced today. During the night the British also stormed and captured the strongly fortified positions known as "railway triangle" southwest of Labasse in Flanders. Driving toward Cambrai the British crossed Canal du Nord northwest of Havrincourt and established themselves in strong positions on the west bank of the canal north and east of Moeuvres.

Paris, Sept. 12. — Signs of withdrawal of the Germans from Vendeuil, four miles north of La Fere to Moy have been discovered by the French patrols advancing along the Oise canal northwest of Travecy, it was learned today. This movement by the enemy, if completely carried out, would give the French possession of La Fere, St. Quentin and the road for a distance of more than thirteen miles.

London, Sept. 12.—A new British drive was opened south of the Scarpe today but no definite details were received late this afternoon.

THOUSANDS DYING OF HUNGER

Italian Prisoners In Austrian Detention Camps Die of Starvation and Disease

Paris, Sept. 12. — Thirty thousand Italian prisoners are dying weekly in Austrian detention camps from hunger and disease, according to prominent Red Cross officers arriving in Paris from Switzerland. An American Red Cross major just returned declared that he had positive information that the largest proportion of the population of the central empire had not had meat since last January. He declared the conditions in Austria and Germany had become ten times worse in the last six months than during any previous period of the war and that underfeeding had left such an imprint on the German people as will take generations to overcome.

Bull Durham Tastes Good.

In a letter to his mother at Burlington Junction, Jess Whittington, of Co. A, 139th Machine Gun Battalion, writes as follows: "Just a line to tell you I am on earth and feeling fine. Have done little today but stand guard. We have one prisoner and I have been guarding him. Four days more and I will have been in service one year, and was just wondering if I would be gone a year longer, but I don't think so. I have been writing you two letters a week, but don't suppose you get all of them, as I am sure I do not get all of yours. Money is not much good here except to buy sweet wine and champagne and a little beer once in a while. The American canteens are scarce here; at least, I haven't found many. We are getting Bull Durham given us now and it sure tastes good. There is not much force in the English and French tobacco."

Sanity Case Before Court.

The county court will sit in special session tomorrow, called to inquire into the sanity of Chas. Alexander of Pickering.

CLEVELAND MAKES A RECORD

Ohio City Makes Extraordinary Saving In Regular Consumption of Foodstuffs

Cleveland, Sept. 12.—In the last five months Cleveland residents have saved enough white flour to give 50,000,000 people a day's ration of white flour. In June and July only Cleveland refrained from eating more meat than necessary and as a result saved enough to give 4,000,000 people each half a pound of beef, pork or mutton. Since April 1 it is estimated Cleveland has saved almost 7,000,000 pounds of sugar, while the war gardens produced enough vegetables to feed Belgium for several weeks. In making this saving from their regular consumption of foodstuffs food officials say that residents of the city have not stinted themselves, but as a result of the cutting off of unnecessary foods have in reality benefited themselves.

The New York State Retail Grocers' Association recently voted in favor of closing places of business all day Sunday.

FRIDAY, THE 13TH

THE YANKS PLAN TO GIVE THE GERMANS HELL

IS PERSHING'S BIRTHDAY

American Troops Are Going to Celebrate by Giving Heinies An Extra Dose of Attention

Somewhere In France, Sept. 12. — There's a subdued atmosphere hovering above this man's army today—a feeling that a surprise is about to be sprung, and that Heinie is to be the goat.

Practically everybody knows that tomorrow is "Friday, the thirteenth," and that on Friday, the thirteenth, 1866, away back in the States—in Missouri—there arrived in a happy family one John Joseph Pershing. Later they called him "Black Jack" Pershing, the man whose very name strikes terror to the Huns.

And so, without violating any confidence, it is permissable to say that the fifty-eighth anniversary of General Pershing's birthday is to be fittingly celebrated. No receptions, no "fish and soups," no extra "eats"—nothing like that. Here's the plan, and here's how one enthusiastic Yankee explained it:

"Every guy in this man's army loves the general. Every man is loyal, and what's more, every man is just aching for the opportunity to prove it. It goes without saying that every man has done his bit at every opportunity, but on tomorrow we're going to do more than our bit.

"WE'RE GOING TO CELEBRATE BY GIVING THE HEINIES AN EXTRA DOSE OF YANKEE ATTENTION. WE'RE GOING TO GO INTO THE BATTLE WITH TWICE OUR CUSTOMARY DETERMINATION TO WHIP HEINIE.

"It makes no difference on what part of the western front the Yankees will be fighting tomorrow—they all understand and all are prepared for the celebration. It's up and at 'em at the first call, and we'll be at 'em until the good old Yankee general has been safely started toward his fifty-ninth milestone.

"Incidentally, don't overlook the fact that these Heinies are superstitious. Lord, how they do fear the Fridays which fall on the thirteenth, black cats and all that sort of thing!

"Now, you get the full import of the celebration, don't you? Hundreds of thousands of Yankees, each with a two-fold purpose—celebrate the general's birthday and give the Huns a double dose, both at the same time. Can you imagine what a wonderful celebration it is going to be?

"And when the day's reports have been compiled of an exceptional Yankee victory all along the line, won't the general be mighty glad that he reached his fifty-eighth birthday while fighting for world freedom over here? What could be sweeter?

A hay fever victim always seems to get so much satisfaction and enjoyment out of talking about his ailment.

Likeness of Theo. Robinson Hung Beside That of Grandfather in Bank

A picture that has received a great deal of attention, as all things pertaining to the soldier boys from home now do, is that of Theodore Robinson, the son of Mr. and Mrs. J. B. Robinson, which has recently been hung in the Nodaway Valley bank by the side of his grandfather, the first Theodore Robinson and the founder of the bank.

The picture is done in military form, with the face of young Theodore, an excellent likeness, showing out from the stars and stripes. Theodore has been in training at Fort Riley and is now on his way to France.

What Can't a Woman Do?

Loving mother with a son in France can outwit even the rules of the postmaster general to send her boy a bit of something good from home. When the edict was made that no parcel post mail could be sent to France it caused more disturbance in the minds of the women at home than anything except the real warfare. But one Maryville woman managed as she said to send her boy "seven home chews at least." She took a card, laid flat upon it as many sticks of gum as would fit, there were seven, fastened each with a bit of paste firmly to the card and enclosed it in a letter. Can't you just see John Mutz over in France (for he is the lucky boy with such a resourceful mother) enjoying that gum?

Praiswater-Zarn.

Miss Garnet Praiswater, the daughter of Mr. and Mrs. J. W. Praiswater of Burlington Junction and Richard Zarn were married at noon today at the home of the bride's parents. The marriage ceremony was performed by the Rev. Ernest Snider, pastor of the Methodist church. Miss Hulda Barber played the march from Lohengrin for the processional and during the ceremony played, "I Love You Truly," (Carrie Jacobs-Bond). The bride wore a pretty frock of white crepe de chine, simply fashioned and trimmed in silver beads. Following the ceremony, which was witnessed by only immediate relatives, a wedding dinner was served. The room and table decorations were carried out in pink and white. Mr. Zarn is the son of Mr. and Mrs. C. B. Zarn of Burlington Junction. The newly weds will leave this evening for Columbia, Mo., where the groom will enter military training service in the university corps and his bride will make her home there during this time.

Hooray! Baby To Rule the House

No Longer Do Women Fear The Greatest of All Human Blessings.

Thousands of women no longer resign themselves to the thought that sickness and distress are natural. They know better, for in Mother's Friend they have found a wonderful penetrating remedy to relieve many dreaded experiences.

Nervousness, bearing-down and stretching pains are among the disheartening and distressing experiences women everywhere say they entirely escape during the period of expectancy by the use of Mother's Friend.

Here is a remedy that softens the myriad of broad, flat abdominal muscles just beneath the skin, enables them to expand without the usual strain upon the ligaments and nerves and assists nature to make it possible for women to go through maternity without many of the dreaded symptoms so familiar to a host of women.

By regular use throughout the period the muscles expand easily when baby is born, and pain and danger at the crisis is consequently less.

Mother's Friend is for external use only, is absolutely and entirely safe and has been used by thousands of women awaiting the greatest time in a woman's life for over half a century.

Write the Bradfield Regulator Co., Lamar Bldg., Atlanta, Ga., for their "Motherhood Book," so valuable to expectant mothers, and in the meantime obtain a bottle of Mother's Friend from the nearest drug store. Begin its use strictly according to directions with every bottle, and thus fortify yourself against pain and discomfort.

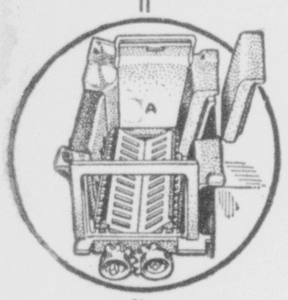
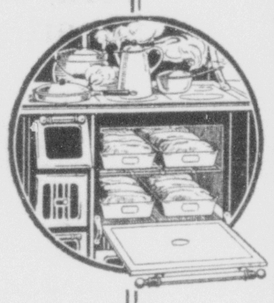
The

Copper-Clad Range

YOU want to equip your home with the best range you can get within the bounds of a reasonable price, don't you? You know as well as we do that a cheaply constructed cook stove is a big expense at any price—that a stove made on right principles of stoutest material and long wearing qualities is the most economical in many ways. That's just what the Copper-Clad Range is—



Economical



Economical in first cost because it is very high value for the money—being made of maleable iron and copper lined between the outside of the stove and the asbestos inner lining, and in many other ways more solid and lasting material than the average stove.

Economical in operation, because it is made like a thermos bottle—with dead air spaces which hold heat, and because the grates are constructed to handle the fuel with the greatest amount of heat and least waste.

Economical of your time, because it is so easily handled, holds fire so well, is such a good baker, and has so many handy and convenient features.

All these and more—which we would like to show you are good and sufficient reasons for you to buy a Copper-Clad Range, and besides

The Price is Very Reasonable

Be sure to see the Copper-Clad at our store.

OLD AGE A CRIME!

Some people are young at 60—red cheeked, ruddy and vigorous. Others are old at 40—joints beginning to stiffen up a bit; step beginning to lag and lose its springiness; occasional touches of pain in the back; feel tired without cause, and possibly a twinge of rheumatic pain.

In most cases these are the danger signals to warn you that the kidneys are not promptly doing their work of throwing off the poisons that are always forming in the body. To neglect these natural warnings is a crime against yourself. If you have these symptoms you can find prompt relief in GOLD MEDAL Haarlem Oil Capsules. For more than 200 years this has been the recognized remedy for kidney and bladder ailments.

GOLD MEDAL Haarlem Oil Capsules are imported direct from the laboratories at Haarlem, Holland. Get them at your druggsts. Do not take a substitue. In boxes, three sizes.

A One Man Tractor

MOLINE UNIVERSAL TRACTOR
It Solves The Farm Help Problem

We were asked many time why we did not show a tractor at Nodaway County Fair. Perhaps we would have done so, if there were any which were not busy at the time the Fair was pulled off, but it would have been out of the question to get one in time for exhibition after our attention was called to making an exhibit; yet why have one at the Fair when you may go out from Maryville, Mo., in any direction and see what a Moline Universal Tractor is doing for its owner?

The excessive cost of horse feed and the maintaince of horse drawn implements and scarcity of farm help is certainly not lowering the cost of production of far mproducts.

Farm land will go higher, consequently rent becomes more, and to overcome this expense, get a Moline Universal Tractor and equipment when one man will do the work of two and YOU may eliminate much of your work stock, reduce the expense and make more from your efforts than ever before in your farming experience. Today, opportunity is knocking at your door; do not let it get by, for it may never return.

Buy a Moline Universal Tractor and Equipment and familiarize yourself with it before spring work and save enough money over the old methods you have followed for years to pay for your equipment the first year.

Do it NOW—there is an advance going on all classes of equipment.
